Subject: Re: ERRS Dimock Task Order

I will take care of this. It will get issued today!!

Thanks,
Jac.

Subject: ERRS Dimock Task Order

I have returned to Dimock today to find multiple emails regarding this task order. I am attaching previous emails regarding this subject. You will see that I submitted the required paperwork on 5/4 for processing, I followed up on the status the following week and received an email stating it was done. I now see that there are still outstanding issues.

This is an urgent matter, those who speak otherwise on the issue are incorrect.

The old task order needs to have 55k deobligated. The new task order needs to be issued for this amount. In addition to the emails I am attaching another copy of the IGCE and contractor selection form.

If there is additional information needed to process this task order, please let me know immediately and I will get what you need.

Again, this is urgent. The contractor has begun notifying vendors to remove all equipment next week and the command post will be locked on Friday 5/25.
